Specification No.:

Customer:

General Description:

Strawberry Juice Concentrate is a clear, red coloured, viscous liquid resulting from concentration through water removal of **strawberry juice** derived from sound, mature, unfermented, wholesome **strawberries** of one or more varieties (Fragaria var.).

Manufacturing Process:

Processing methods are conform to **Good Manufacturing Practice** and are consistent with production of high quality concentrate. The **strawberry juice** is processed in a manner that does not alter the sensory or nutritional properties of the juice outside the normal range of the original fruit.

Flavour:

The flavour of the **strawberry juice concentrate**, when diluted to a density of 1,0350, has the characteristic of high quality **strawberry juice**, free of any objectionable process, fermentation, spoilage or storage flavours, including bitterness, astringency or tannic flavours.
